

StateWise Energy Illinois LLC

Net Metering Program

The StateWise Energy Illinois LLC (“SWE”) Net Metering program is offered pursuant to Section 16-107.5 of the Public Utilities Act and Part 465 of the rules of the Illinois Commerce Commission (83 Ill. Admin. Code 465) and is available to residential or commercial customers who own or operate an on-site eligible renewable electric generator of up to 2,000 kW that generates electricity for the customer’s own use and is intended primarily to offset the customer’s own electrical requirements. In addition, the Net Metering program is available for customers with an interest in a Community Renewable Generation Project, such as a Subscription in a community solar project. Interested applicants should contact SWE. Eligible renewable electric generators include those powered by solar electric energy, wind, dedicated crops grown for electricity generation, agricultural residues, untreated and unadulterated wood waste, landscape trimmings, livestock manure, anaerobic digestion of livestock or food processing waste, fuel cells or microturbines powered by renewable fuels, or hydroelectric energy.

The Net Metering program will provide a customer credit for the excess generated energy that flows onto the distribution system according to the terms of your service agreement with SWE, as well as determine retail rate offset for reduced consumption.

Net Metering Program Requirements

1. The proper interconnection application form must be submitted to your utility to initiate the interconnection process for renewable electricity generating facility to the utility energy grid within 30 days of this application. SWE will cancel your authorization to net meter if you have not executed and returned to your electric utility an interconnection agreement with the electric utility pursuant to 83 Ill. Adm. Code 466 and provided the executed interconnection agreement to SWE within 12 months after receiving the interconnection agreement from the electric utility.
2. Verification of the installation of the appropriate type of electric meter.
For more information, please contact your utility.
Please Note: Approval by utility and all prerequisites of service must be met prior to approval from SWE.
3. A Net Metering Application Form must be submitted to SWE to enroll in the Net Metering Program. The attached Application must be completed and mailed or emailed as noted on the application.

NET METERING APPLICATION FORM (ILLINOIS)

Please complete and return this form within 30 days to:

Date: _____

StateWise Energy Illinois LLC

PO Box 399

Buffalo, NY 14240-0967

Attention: Net Metering

OR

Email: cs@statewiseenergy.com

Section 1: Net Metering Applicant's Contact Information

Customer's Full name: _____

Mailing Address: _____

City: _____ State: _____ Zip Code: _____

Telephone: _____ Email Address: _____

Section 2: Location of Net Metering

Account Number of Facility Site: _____

If Service Address is the same as Mailing Address, please check here:

Service Address: _____

City: _____ State: _____ Zip Code: _____

Section 3: Description of the Net Metering Facility

Total Nameplate Capacity of the Eligible Net Metering Facility kW): _____

kW (AC) Date Energized (or target date): _____

Estimated Degradation Factor (if applicable): _____

Type of Facility:

Please check as applicable:

- Solar Electric Energy
- Dedicated crops grown for electricity generation
- Wind
- Anaerobic digestion of livestock waste or anaerobic digestion of food processing waste
- Hydroelectric
- Fuel cells powered by renewable fuels or microturbines powered by renewable fuels
- Agricultural residues
- Untreated wood waste and unadulterated wood waste
- Landscape trimmings Livestock manure

Section 4: Qualified Person Confirmation

Please check each of the following that apply:

The facility was installed by a Qualified Person as defined in 83 Ill. Admin Code § 468.20:

The facility was installed by a Self-Installer as defined in 83 Ill. Admin. Code § 468.20:

Section 5: Qualified Person Confirmation

I acknowledge that the credit will be applied in the subsequent month that the generation was used.

I am electing my annual period to end in: April October

All outstanding bill credits expire at the end of the customer's elected annual period.

StateWise Energy Illinois LLC will notify the applicant within 10 days of receiving a completed application whether this application is approved.
